- Paperless billing

ATLANTA AIRPORT MARRIOTT GATEWAY

- Silver LEED Certified (Leadership in Energy and Environmental Design)
- White roof to shed heat from the building allowing reduction in energy

- Guest rooms feature soundproof windows to eliminate noise pollution
- Various recycling programs, both in construction and current operation, such as single stream recycling
- ORCA food waste management system to lower waste disposal landfills
- 75% of items that left the construction site were recycled
- 10% of the hotel is made from recycled material
- 20% of the supplies used to build the hotel are regional and local material
- Use of low-emitting materials such as low VOC paint, carpet, wood, glue and caulk
- 28% reduction in energy consumption
- 50% reduced water consumption in landscaped area by help of drought resistant plants
- 30% reduced water consumption in the hotel by using low-flow faucets, toilets and showerheads while meeting Marriott's water flow faucets
- Built near MARTA and ATL SkyTrain, both energy-efficient transit systems
- Preferred parking spots for low-emitting and fuel-efficient vehicles
- Two electric vehicle charging stations
